

Huawei Security Product Family

Solution

Branch and Campus SASE Solution

Multi-branch Network-Security Convergence

Multilayer Ransomware Protection Solution

Network-Storage Multilayer Ransomware Protection

SOC Solution

Intelligent End-to-End Security Operation Center

Analyzer

Boarder & Endpoint Threat Analyzer

- > 98% Event analysis automatically
- Seconds level threat handling
- Minutes level threat information update

Network Traffic Analyzer

- AI-based Intelligent detection
- Alarm noise reduction and response orchestration
- Cloud-network-security-endpoint collaboration

Sandbox

FireHunter6000

Network Traffic Threat Detection Probe

HiSecEngine Probe1000

Controller

SecoManager

- Dedicated Security Management
- Log management
- Anti-DDoS management

NCE-Campus

- Network-security converged management platform
- LAN-WAN-security convergence

Enforcer

HiSecEngine AI Firewall

USG6000F

USG6000E

HiSecEngine Terabit-level AI Firewall

USG12000

HiSecEngine Anti-DDoS system

AntiDDoS1900

HiSecEngine Terabit-level Anti-DDoS System

AntiDDoS12000

Endpoint security

HiSec Endpoint

- Precise detection of unknown threats
- Ransomware prevention, 0 data loss
- Lightweight, 0 endpoint lags
